SELECTING A VENTED SET

Vented Gas Log sets consist of three elements: Logs, Burner and Lighting Control. You can accomplish this in two ways using this price list:
"Build Your Own" (1) Select the Logs (Pages 2-6) or Alterna Set (Pages 44-50);
(2) Select a Match Lighted/EIS Ready Burner on Page 8-11 (please note: these sets include the grate, where appropriate); and **(3)** Select a Safety Lighting Control on Pages 12-14;
– or --
"Factory Assembled Burner/Lighting Control" (1) Select the Logs (Pages 2-6) or Alterna Set (Pages 44-50); **(2)** Select a Control Type (Manual, Remote Ready, Variable Remote, Valve Vanisher (EIS, Millivolt or Manual) or Millivolt) on Page 18-34; and
(3) Select the Burner Type (please note: these sets include the grate, where appropriate).

LOGS FOR VENTED SETS

Requires Hearth Kit and Safety Pilot Kit (where required or desired) to make a complete set.

Rasmussen uses real pieces of wood to develop its log patterns and a painstaking molding process to reproduce the finest detail. Rasmussen logs are of the Ceramic Bonded Refractory Concrete type. Rasmussen uses a high-heat resistant, high-alumina refractory cement with a maximum temperature rating of over 2300 degrees F, lightweight expanded shale aggregates and rigid steel rod reinforcing for strength and durability. All of Rasmussen's logs are hand colored with a multi-step (up to six colors) process utilizing environmentally-friendly non-paint-based ceramic colorations, which remain colorfast under fire, and which do not create any odor when burned.

"Use with Burner" key: "**F**"= Flaming Ember (includes F and FX styles; "**LC**"=Triple Burner/Grate; "**LD**"= Large Triple Burner/Grate; "**CS**"=Custom Pan; "**CXF**"= Custom Embers Pan; "**DF**"= See-Thru Flaming Ember and Custom Embers; "**T**"=Tipi/Andiron (TNA)

Evening Prestige (EPR) - Large scale set with heavy bark, split and char features.

Two piece front log. Good for masonry and larger factory-built fireplaces.

Set Size	Item # Single Face	No. Pieces	MSRP	No. Ctns	Wt	Use with Burner

Read the installation manual thoroughly before installation and use of a gas log set. Manuals and other product information are available on our online knowledge base at www.RasBox.com

BURNERS FOR VENTED SETS

Burner Use Key:

SF = Single Face **DF** = Double Face **L** = Logs
A = Alterna (FireBalls, FireShapes, FireStones, FireDrops, FireGlitter)

Vented Gas Burners are designed to burn with a yellow, smoky, wood-like flame that will produce carbon soot which must be fully exhausted up the chimney. Vented gas logs are not a cure for a smoking (non-drafting) chimney.

All Rasmussen **Vented Pan Burners** are constructed of heavy 16-gauge steel, with ½" schedule-40 pipe (not light duty tubing) for the main burner tube and ¼" steel tubing for the ember booster portions of the FX, CXF and DF-CF, LC and LD burners. All seams are welded for maximum performance and durability. Rasmussen vented pan burners utilize a pan filler, which completely covers the burner tube(s). The gas pressurizes beneath the filler, then breaks through into a dancing, smoky, wood-like flame. Pan filler varies with gas type: White Sand for Natural Gas; Black Volcanic Ash for Propane (plus an air mixer and orifice).

Safety Controls are required for all Propane installations; for Natural Gas as desired or required by local custom or requirement. In all cases, Controls provide a convenient means of lighting the burner while providing shutdown of the gas flow to the burner in case of an interruption in the gas supply or a flame out.

"F" Burner - L-shaped half-pan burner that sits on the firebox floor underneath a grate. Single pipe burner provides flame and ember glow.
"FX" Burner - L-shaped half-pan burner that sits on the firebox floor underneath a grate. Single pipe burner with ember boosters that increase the depth of the ember bed by 2 inches compared to the F burner.
"CS" Burner – Rectangular-shaped full-pan burner. Single pipe with baffle to distribute gas. Logs, FireBalls, etc. sit in the pan – no grate is used. 4.25" high with the legs, 2" high without the legs. Use in Single, Double and Multi-sided fireplaces. **"B"= Black Painted; "SR"= Stainless Steel with Tubular Legs; "SS"= Stainless Steel with Strap Legs.**
"CXF" Burner – Full pan, tapered pan burner. Single pipe with baffle and ember booster to distribute gas. Logs, FireBalls, etc. sit in the pan – no grate is used. 2" high. Use in Single-sided fireplaces. **"B"= Black Painted; "S"= Stainless Steel.**
"LC" and "LD" Burners – Lower burner for embers and upper burner for main flame are welded to a heavy grate. Designed for larger scale fireplaces. The design of the LD burner eliminates the need for a rear log.
"TNA" Burner - Sloped burner with single pipe and ember boosters. Specifically designed for Rumford Fireplaces (wide front width, narrow rear width, shallow depth), it can be used in "regular" fireplaces with Andirons and Evening-series logs to create a unique look.
"DF-CF" Burner - Full pan that sits on the firebox floor underneath a see-through grate. Single pipe burner with multiple ember boosters provides flame and ember glow for Double Face (See-Through) Fireplaces.
"DF-LC" and "DF-LD" Burners - LC and LD burner designs applied for Double Face (See-Through) Fireplaces. Multiple burners are welded to the heavy grate. These designs require 3/4"-id and larger gas supply to provide adequate flame height. DF-LC is 21" deep; DF-LD is 25" deep.

Match Lighted/EIS Ready Hearth Kits

Propane requires safety control. See Page 12 for Safety Lighting Controls.

Hearth Kits Includes: Pan Filler (Sand for Natural Gas (Indoors) or Volcanic Ash for Propane and Natural Gas (Outdoors), Ember Magic, Flexible SS Non-Whistling Connector Kit, Damper Clamp, Instructions.

NOTE: Burners for Vented Sets produce soot and other combustion products and are for use ONLY in fully functioning fireplaces in which it is safe to burn wood and with the damper wide open. Glass Doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety control valves and components.

For Outdoor Use: Suffix Item # with **"OS"** and indicate "Outdoor use" in your purchase order description and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor use.

Add **N** for Natural Gas; **P** for Propane after each item number

Safety Control Lighting Kits for Vented Sets

Safety Lighting Kits provide safety shutdown in the event of an interruption in the gas supply or flameout. They also provide a convenient means of lighting the main burner(s) and controlling the flame height. They are required for all propane installations, advisable for natural gas, and are required for installations in certain jurisdictions. There are two main categories of Safety Lighting Kits:
1) Standing Pilots (SP) ("EASY" and Millivolt); and 2) Pilot on Demand-Electronic Ignition Systems (EIS)
Basic Manual Control (SPK1) - turn the valve knob to light the main burner and adjust the flame height. Is not upgradable to remote control. Has 150,000 BTU/hour capacity (up to 42" set size).

"EASY" System SPs are available in the following types (all 90,000 BTU/hour maximum capacity):
A) **Manual** (SPK3E) – turn the valve knob to light the main burner. ON/OFF control (minimal flame height adjustment). B) **Remote Ready** (RPK3E) – Latching solenoid system that controls the ON/OFF of the burner(s) with the receiver switch or one of five Wireless Remote Transmitter Devices (sold separately - see below). "SE" is not a "millivolt" system. Adjust the flame height manually by adjusting the knob at the valve.

- •Wireless Hand-Held Remote Control with Simple ON/OFF or Thermostat feature.
- •Wireless Wall Timer •Wireless Wall Switch •Wireless Wall Thermostat

C) **Variable Flame Height Remote Control** (RMC1E) - Light the burner and control the flame height with the hand-held wireless remote control (included).

***Please note:** All of the above "EASY" options use the same valve body. This means that a "Manual" kit may be upgraded at any time to either "Remote Ready" or "Variable Flame Height Remote Control" functionality with the addition of either the SE-UP1 or RE-UP1 upgrade kits. The all use a thermocouple pilot system.

Millivolt Switch/Remote Ready (RPK1/3) - Light the burner with the included wired wall switch, or with the accessories found on Page 13. Adjust the flame height manually by adjusting the knob at the valve.

There are two main types of EIS: 1) Battery powered; and 2) 120V AC powered

A) **Battery Powered** are designed to be installed either inside or outside of the firebox. When an AC adapter is used, the batteries become a back-up in case of power outage. Can be used with automation system.

B) **120V AC Powered** require the components to be installed outside of the firebox in a "vault" with gas and electricity. They are the systems to use if you require the ignition to be tied into an exhaust fan or for use with a whole-house automation system. No gas modulation control - requires manual valve at burner to control flame height (such as V17, V1, or V2, or one of sufficient gas capacity).

Have our factory assemble an "EASY" or RPK Safety Control to any of the following Match Lighted gas log burners up to and including the 30" set size: F, FX, CS, CXF, TNA, and DF-CF.
To order, suffix the burner kit item number with the "EASY" Safety Control item number.
The price is the sum of the **Burner** + **Control** + **$45.00 list**

For Example: B24FXH-RMC1E-N $255 + $523 + $45 = $823.00 list

Standing Pilot Lighting Kits (suffix with "N" for Natural Gas, "P' for Propane)

Item #	Description	MSRP	Wt
SPK1-	Manual Safety Pilot Control - Not upgradable to Remote. 150,000 BTU/hr	**173.00**	2
SPK3E-	Manual "EASY" Safety Pilot Control - upgradable to remote	**173.00**	2
RPK3E-	Remote Ready "EASY" Safety Pilot Control - **Wireless Remote Transmitter Device recommended (see below for choices)**	**343.00**	4
RMC1E-	Variable Flame Height Remote Safety Pilot Control - **Includes Remote**	**523.00**	4

Wireless Remote Transmitter Devices for RPK3E Remote Ready Control

SR-2R	Wireless Hand-held Transmitter with simple ON/OFF function	**65.00**	2
THR-2R	Wireless Hand-held Transmitter with Thermostat function	**101.00**	2
TS-2R	Wireless Wall Thermostat Control	**127.00**	2

RH2	Ceramic Log House for "SE", "RE" and Millivolt receivers	**40.00**	3
RH3	Smooth-sided Receiver House - use with FireBalls, FireShapes and FireStones for contemporary look ****SPECIFY CERAMIC COLOR**** (Pg. 44)	**40.00**	4

All items are subject to availability. Prices subject to change without notice. Possession of price list confers no right to purchase at these prices. All rights reserved. © 2013 Rasmussen Iron Works, Inc.

Item #	Description	MSRP	Wt
SE-UP1	Kit to upgrade from Manual "EASY" to Remote Ready functionality. Includes solenoid, receiver and batteries. Wireless Remote Device recommended.	**179.00**	2
RE-UP1	Kit to upgrade from Manual "EASY" or Remote Ready "EASY" to Variable Flame Height Remote Control functionality. Includes motor drive, receiver, transmitter and batteries.	**359.00**	3

American/Canadian "Yellow Flame" ANSI Retrofit Kits

Combine with 15", 18", 20", 24" and 30" "F" and "FX" Match Lighted Hearth Kits found on Pages 3-4 to create an ANSI-certified Hearth Kit. (Suffix with "N" for Natural Gas, "P' for Propane)

Item #	Description	MSRP	Wt
ZxxME-	ANSI Manual "EASY" Safety Pilot Control System - upgradable to remote using SE-UP1 or RE-UP1.	**242.00**	3
ZxxSE-	ANSI Remote Ready "EASY" Safety Pilot Control - **Wireless Device recommended (see Page 12)**	**412.00**	4
ZxxRE-	ANSI Variable Flame Height Remote Safety Pilot Control - Includes Remote	**592.00**	6
ZxxS-	ANSI Remote Ready Millivolt Safety Pilot Control - **Wireless Device recommended (see below)**	**412.00**	4

Millivolt Safety Pilot Controls – Can be used with home automation systems.

(suffix with "N" for Natural Gas, "P' for Propane)

RPK1XHC-	Millivolt Switch Safety Pilot Control – 720,000 BTU/hr - Good for use on 72" and larger sets (60" and larger for see-through). 1" x 1"	**1085.00**	4
RPK1HC-	Millivolt Switch Safety Pilot Control – 300,000 BTU/hr - Good for use on 54" to 60" sets (42" to 48" for see-through). 3/4" x 3/4"	**545.00**	4
RPK1-	Millivolt Switch Safety Pilot Control – 210,000 BTU/hr - Good for use on 33" to 48" sets (30" to 36" for see-through). 1/2" x 1/2"	**385.00**	4
RPK3-	Millivolt Switch Safety Pilot Control - 100,000 BTU/hr - Good for use on 30" and smaller sets (24" for see-through). 3/8" x 3/8"	**375.00**	4

Remote Accessories/Parts for Millivolt Controls (RPK1, RPK3) & EIS-24V

THR-MV1	RF Wireless Hand-held ON/OFF/Thermostat/Count-down Timer/ Non-Programmable Transmitter/Receiver (batteries included)	**219.00**	2
SR-MV1	RF Wireless Hand-held ON/OFF Transmitter/Receiver (batteries included)	**152.00**	1
WS-MV1	RF Wireless Wall Switch ON/OFF Transmitter/Receiver (batteries included)	**165.00**	1
TS-1	Wall Thermostat Control, 20' wire	**51.00**	1
WS-1	Wall Switch, Cover, 20' wire	**26.00**	1
WT-1	60 minute Wall Timer, Cover, 20' wire	**92.00**	1
RH2	Ceramic Log House for remote receivers	**40.00**	3
RH3	Smooth-sided Receiver House - use with FireBalls, FireShapes and FireStones for contemporary look **(specify Ceramic Color – pg 44)**	**40.00**	3
V11EHC	Millivolt Valve for RPK1XHC	**900.00**	3
V11HC	Millivolt Valve for RPK1HC	**470.00**	3
V11	Millivolt Valve for RPK1	**305.00**	3
V11Z	Millivolt Valve for RPK3 (specify N or P)	**302.00**	3
JPG9-	Pilot/Multicouple Assembly for RPK1 and RPK3 (specify N or P)	**80.00**	1
JPG9C	Multicouple for JPG9 (RPK1 and RPK3)	**53.00**	1

Electronic Ignition/Pilot on Demand Systems – Battery Powered

(suffix with "N" for Natural Gas, "P' for Propane)

EIS-RL150-	120V AC /battery powered. Variable Flame Height Remote Control. Includes Remote. 72-inch pilot leads to install within 5-feet of burner (outside of the firebox).	**775.00**	6
EIS-RS150-	Battery powered. Variable Flame Height Remote Control. Includes Remote. 24-inch pilot leads to install within 18-inches of burner inside the firebox.	**715.00**	6

All items are subject to availability. Prices subject to change without notice. Possession of price list confers no right to purchase at these prices. All rights reserved. © 2013 Rasmussen Iron Works, Inc.

Electronic Ignition/Pilot on Demand Systems – 24 Volt

The below Electronic Ignition Systems are intended to be installed outside of the firebox in an adjacent vault. 120V AC Powered, stepped down to 24V with included transformer. Requires external switch device to operate (not included). No gas modulation control - requires manual valve at burner to control flame height (such as V17, V1, or V2, or one of sufficient gas capacity). Can be used with home automation systems.

EIS-N135	Natural Gas Only. 165,000 max BTU/hr. 1/2" inlet x 1/2" outlet	**745.00**	6
EIS-N200	Natural Gas Only. 200,000 max BTU/hr. 1/2" inlet x 3/4" outlet	**790.00**	6
EIS-N350	Natural Gas Only. 350,000 max BTU/hr. 3/4" inlet x 3/4" outlet	**1125.00**	7
EIS-N720	Natural Gas Only. 720,000 max BTU/hr. 1" inlet x 1" outlet	**1650.00**	8
EIS-P200	Propane Only. 320,000 max BTU/hr. 1/2" inlet x 3/4" outlet	**840.00**	6
EIS-P350	Propane Only. 560,000 max BTU/hr. 3/4" inlet x 3/4" outlet	**1185.00**	7

For Outdoor Use: Suffix Item # with **"OS"** and indicate "Outdoor use" in your purchase order description and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor applications.

(F") Flaming Ember Burner (only) for Vented Installations

Includes: Burner; Sand (Natural Gas pan filler) or Volcanic Ash (Propane pan filler); Ember Magic; SS Flexible Non-Whistling Connector Kit; Damper Clamp; Instructions.

Grate required but not included. Suffix item # with "N" for Natural Gas, "P" for Propane

Manual "EASY" Safety Pilot Control – Factory Installed

Manual Control – turn the knob to light the main burner.
Includes: Pan Filler, Ember Magic, Flexible SS Non-Whistling Connector Kit, Damper Clamp, Instructions.

Manual "EASY" Controls may be upgraded at any time to either "Remote Ready" or "Variable Flame Height Remote Control" functionality with the addition of either the SE-UP1 or RE-UP1 upgrade kits. (See Page 13)

NOTE: Burners for Vented Sets produce soot and other combustion products and are for use ONLY in fully functioning fireplaces in which it is safe to burn wood and with the damper wide open. Glass Doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety control valves and components.

For Outdoor Use: Suffix Item # with "**OS**" and indicate "Outdoor use" in your purchase order description and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor use.

Add **N** for Natural Gas; **P** for Propane after each item number

Remote Ready "EASY" Safety Control – Factory Assembled

Latching solenoid system that controls the ON/OFF of the burner(s) with the receiver switch or one of five Wireless Remote Transmitter Devices (sold separately – see Page 12): •Wireless Hand-Held Remote Control with Simple ON/OFF (SR-2R) or Thermostat feature (THR-2R). •Wireless Wall Timer (WT-2R) •Wireless Wall Switch (WS-2R) •Wireless Wall Thermostat (TS-2R)

"RPK3E" and "SE" are not "millivolt" systems. The Latching Solenoid is powered by 4-AA Batteries. Adjust the flame height manually by adjusting the knob at the valve.

NOTE: Burners for Vented Sets produce soot and other combustion products and are for use ONLY in fully functioning fireplaces in which it is safe to burn wood and with the damper wide open. Glass Doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety control valves and components.

For Outdoor Use: Suffix Item # with "**OS**" and indicate "Outdoor use" in your purchase order description and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor use.

Add **N** for Natural Gas; **P** for Propane after each item number

Variable Remote "EASY" Safety Control - Factory Assembled

Light the burner and control the flame height with the hand-held wireless remote control.
Includes: Pan Filler, Ember Magic, Flexible SS Non-Whistling Connector Kit, Damper Clamp, Instructions, Remote Transmitter.

NOTE: Burners for Vented Sets produce soot and other combustion products and are for use ONLY in fully functioning fireplaces in which it is safe to burn wood and with the damper wide open. Glass Doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety control valves and components.

For Outdoor Use: Suffix item # with "**OS**" and indicate "Outdoor Use" in descriptions and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor applications

Add **N** for Natural Gas; **P** for Propane after each item number

Manual Control with Valve Vanisher

Raises logs set 2 5/8" above the floor.

Factory assembled Chassis/Burner/Control System. Right side gas feed only.
Includes: Pan Filler, Ember Magic, Flexible SS Non-Whistling Connector Kit, Damper Clamp, Instructions.

NOTE: Burners for Vented Sets produce soot and other combustion products and are for use ONLY in fully functioning fireplaces in which it is safe to burn wood and with the damper wide open. Glass Doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety control valves and components.

For Outdoor Use: Suffix item # with "**OS**" and indicate "Outdoor Use" in descriptions and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor applications

Add **N** for Natural Gas; **P** for Propane after each item number

Millivolt/Remote Ready Controls – Factory Assembled

Light the burner with the included wired wall switch, or with the millivolt accessories found on Page 6.
Adjust the flame height manually by adjusting the knob at the valve.
Includes: Pan Filler, Ember Magic, Flexible SS Non-Whistling Connector Kit, Damper Clamp, Instructions.

NOTE: Burners for Vented Sets produce soot and other combustion products and are for use ONLY in fully functioning fireplaces in which it is safe to burn wood and with the damper wide open. Glass Doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety control valves and components.

For Outdoor Use: Suffix item # with "**OS**" and indicate "Outdoor Use" in descriptions and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor applications.

Add **N** for Natural Gas; **P** for Propane after each item number

Gas Logs for Rumford Fireplaces

Traditional Rumford Fireplaces have a wide front, narrow back, shallow depth and a height nearly as tall or taller than its width. They have a unique aerodynamic throat and smoke chamber that create greater efficiency than traditional fireplace designs.

- Rasmussen has designed these two Tipi stacks to fit within the Traditional Rumford Fireplace Dimensions listed below.
- Model numbers for the Rumford Log Sets are keyed to Traditional Rumford Fireplace Dimensions, not the size of the logs.
- These Tipi sets are intended for use with the Tipi/Andiron Burner ("TNA" and "TNA-E" models).
- These sets may be used in fireplaces with more standard tapers and depths, but you may need to step up to the next size and/or add individual logs in order to satisfactorily fill the fireplace opening. Please contact Rasmussen if you need sizing and product selection assistance.

Traditional Rumford Fireplace Dimensions

Rumford F/P Size	Front Width	Rear Width	Depth	Opening Height	TNA Burner	Rear Width
24	24"	13.5"	12"	24" – 28"	**TNA20, TNA20E**	9 1/8"
30	30"	13.5"	12"	28" – 32"	**TNA20, TNA20E**	9 1/8"
36	36"	13.5"	14"	32" – 38"	**TNA20, TNA20E**	9 1/8"
42	42"	15"	15"	38" – 42"	**TNA24, TNA24E**	12 1/8"
48	48"	18"	16"	42" – 48"	**TNA24, TNA24E**	12 1/8"
60	60"	22.50	20"	45" – 54"	**TNA30, TNA30E**	18 1/8"
72	72"	24"	24"	45" – 60"	**TNA36, TNA36E**	24 1/8"

Retiring Tipi (RF-R) Short Vertically Stacked Logs for use with TNA Burners.

Rumford F/P Size	Item # Single Face	No. Pieces	MSRP	No. Ctns	Wt	Use with Burner	Stack Height
24	**RF-R24LOG**	9	**275.00**	1	26	**TNA20, TNA20E**	15
30	**RF-R30LOG**	9	**285.00**	1	29	**TNA20, TNA20E**	15
36	**RF-R36LOG**	10	**295.00**	1	31	**TNA20, TNA20E**	16
42	**RF-R42LOG**	10	**305.00**	1	34	**TNA24, TNA24E**	16
48	**RF-R48LOG**	10	**315.00**	1	43	**TNA24, TNA24E**	16
60	**RF-R60LOG**	10	**410.00**	2	78	**TNA30, TNA30E**	23
72	**RF-R72LOG**	11	**480.00**	2	92	**TNA36, TNA36E**	23

Rumford Tipi (RF-T) Tall Vertically Stacked Logs for use with TNA Burners.

Good for Rumford Fireplaces and Fireplaces with square or vertically oriented openings.

Tipi/Andiron Burner ("T") - Factory Assembled Controls

Includes: Pan Filler, Ember Magic, Flexible SS Non-Whistling Connector Kit, Damper Clamp, Instructions.
Use with: • Evening Series Logs and your favorite pair of andirons (not included)
• Retiring Tipi Logs • Rumford Tipi Logs

NOTE: Burners for Vented Sets produce soot and other combustion products and are for use ONLY in fully functioning fireplaces in which it is safe to burn wood and with the damper wide open. Glass Doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety control valves and components.

For Outdoor Use: Suffix item # with "**OS**" and indicate "Outdoor Use" in descriptions and we will send Volcanic Ash in place of Sand, which we recommend to achieve an even flame in outdoor applications.

Standard Burner

Add **N** for Natural Gas; **P** for Propane after each item number

- **RMC1E** and **VEI** include the Hand-held Remote Transmitter

Andiron Classic Concept

The Andiron Classic Concept is created by using the Evening Prestige Logs (or any other "Evening Series" logs), TNA burner, and your favorite pair of andirons (the ends of the logs are propped on the andiron shanks, creating a "falling into the ember bed" appearance).
In place of andirons, you can use the Chunkers in item #BOC.
Rasmussen does not make or sell andirons.

Volcanic Ash (VA) Calculations for Fire Pits **(see page 51 for VA items)**

For **Rectangular** uses (average front and rear widths for tapered fireplaces):

____ Width **times** ____ Depth **times** ____Thickness **divided by** 33.2 = ____Pounds of VA required

Example: 24" Width, 12" Depth, 2" Thickness 24 X 12 X 2 ÷ 33.2 = 17.2 Pounds of VA

For **Circular** uses (FirePits, flowerpots, etc.):

____ Diameter **times** ____Diameter **times** ____Thickness **divided by** 42.3 = ____Pounds of VA req'd

Example: 24" Diameter, 2" Thickness 24 X 24 X 2 ÷ 42.3 = 27.2 Pounds of VA

FireGlitter and FireDrops For Accenting your Alterna set or FirePit

Glass and FireDrops have many uses as an accent and design element. Flame reflecting off of these elements create a dynamic flicker. When cold, they are a design element, in both color and design, all by itself. When used with FireBalls, FireShapes or FireStones, you have created a complete look.

Uses: • Vented burner topper (CS or CXF). 1" thick over sand or volcanic ash is sufficient. Place FireBalls, FireShapes or FireStones on top to complete the look. • Place around a set to reflect the flickering flame and to provide an additional design element. • Use in an outdoor fire pit. • Use as a decorative outdoor landscape feature.

FireGlitter and FireDrops are tempered for long-term heat consumption and tumbled to eliminate sharp edges. They will not melt, degrade, or emit toxic fumes. 90 pounds of FireGlitter, or 110 pounds of FireDrops, will approximately fill 1 cubic foot.
To determine the minimum amount of glass required, compute using the following formulas by filling in the blanks (measure target area in inches):

FireGlitter (glass):

For Rectangular uses (average front and rear widths for tapered fireplaces):
____ Width **times** ____ Depth **times** ____Thickness **divided by** 19.2 **=** ____Pounds of Glass required
Example: 24" Width, 12" Depth, 2" Thickness 24 X 12 X 2 ÷ 19.2 = 30 Pounds of Glass

For Circular uses (FirePits, flowerpots, etc.):
____ Diameter **times** ____Diameter **times** ____Thickness **divided by** 24.4 **=** ____Pounds of Glass req.
Example: 24" Diameter, 2" Thickness 24 X 24 X 2 ÷ 24.4 = 47 Pounds of Glass

FireDrops:

For Rectangular uses (average front and rear widths for tapered fireplaces):
____ Width **times** ____ Depth **times** ____Thickness **divided by** 16.0 **=** ____Pounds of FireDrops req.
Example: 24" Width, 12" Depth, 2" Thickness 24 X 12 X 2 ÷ 16.0 = 36 Pounds of FireDrops

For Circular uses (FirePits, flowerpots, etc.):
____ Diameter **times** ____Diameter **times** ____Thickness **divided by** 20.2 **=** ____Pounds of Drops req.
Example: 24" Diameter, 2" Thickness 24 X 24 X 2 ÷ 20.2 = 57 Pounds of FireDrops

ALTERNA™ Vented FireShapes™ - Sets

About Ceramic Stain Coloration

Rasmussen uses our own proprietary, environmentally-friendly ceramic stain coloration, which differs from paint in the following qualities:

1) Ceramic Stain produces a transparent, non-uniform appearance, as it absorbs into the material's pores, rather than merely covering the surface of the shape, like paint.
2) Unlike paint, ceramic stain will not burn away under fire. Ceramic stain will age gracefully.
3) Color appearance may vary from piece to piece, enhancing the uniqueness of our products.

Color Codes for Smooth Balls and Shapes: •Natural = **NA** •Black **= BL** •Light Gray **= LG** •Dark Gray **= DG** •Beige **= BE** •White **= WH** •Brown **= BR** •Adobe Red **= RD**

Color Codes for Rustic Balls: •Coal = **CL** •Pewter = **PR** •Rust = **RT**

Please suffix above codes to Item Numbers, eg. **FB24-BL or RBALL-24A-RT**

Chillbuster™ CoalFire™ Fireplace Heater

Chillbuster™ CoalFire™ is a vent-free coal-effect gas fire set designed for small, shallow depth Victorian, coal and wood burning fireplaces.

Chillbuster CoalFire is a vent-free coal effect gas fire set designed for:
- Victorian, coal burning or fireplaces which were not designed for burning wood, but has a flue.
- Flue area is very small in comparison to the area of the opening, resulting in spillage of combustion products.
- Chimney is old. As a result, fireplace cannot be used without an expensive reline or reconstruction.
- Shallow depth of the fireplace. Most traditional gas log sets require a minimum of 12" of depth.
- You like the appearance of a coal-effect basket as a pleasing alternative to traditional gas logs
- You want to turn your unused fireplace into a source of heat for the room.

Chillbuster CoalFire Fireplace Heater ("C9" series) incorporates the following features:
- State-of-the-art lanced-port opposed-louver burner, the heart of all Rasmussen Chillbuster vent-free sets
- EASY Control System or Millivolt Control.
- Heating Unit (burners, coals and control) can be purchased separately to be used with any basket in which the bottom is removed, or purchased with one of the three baskets made by Rasmussen.
- Two sizes of Heating Units: (1) C9A - 33,000 BTU/hour max.; and (2) C9B - 40,000 BTU/hour max.
- The coals are made from the same refractory material from which we make our gas log sets. No potentially harmful ceramic fiber.
- Certified to both the vent-free (ANSI Z21.11.2) and vented (ANSI Z21.60) standards, so CoalFire can be used in vent-free, vented and reduced vent installations.

Chillbuster™ CoalFire™ Specifications:
- Height (to top of burner) = 6.625”
- Height (to top of coals) = 10.5”
- Lowest point of flame = approx. 5 1/8” from the floor. Everything below that is the “guts” of the system (burner venturis, control valve, plumbing). The glow starts at about 5.5" and emanates from the coals as well as the stainless steel pieces that hold the coals.
- Absolute minimum fireplace depth required = 6.5”, the maximum forward-most projection of the flame.
- Minimum Fireplace Depth Required for Baskets: Classic = 9.5”; Americana and Moderne = 8.375”

Please Note:
• **SE** – See Page 12 for Wireless Remote Transmitter options
• **RE** includes the Hand-held Remote Transmitter

VENT-FREE GAS LOG FIREPLACE HEATERS

All CHILLBUSTER sets are certified to two standards: ANSI Z21.11.2 (Unvented Room Heaters) and ANSI Z21.60 (Vented Decorative Appliance). For use in wood-burning fireplaces or approved vent-free firebox enclosures. They may be used with the damper open, closed or anyplace in between. Vent-Free sets are supplemental zone heaters - they are not intended for continuous use or whole house heating.

Glass doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety controls. With adequate combustion and ventilation air, the damper may be closed for vent-free use. The damper may be opened slightly for reduced venting. Check local codes and ordinances for permitted uses.
Vent-free sets are the only safe alternative for burning in a vented fireplace with smoking/spillage issues.

A complete certified set consists of Chillbuster Logs and Chillbuster Hearth Kit.

DO NOT MIX LOGS AND HEARTH KITS FROM DIFFERENT CATEGORIES OR FROM DIFFERENT MANUFACTURERS. Doing so could result in unsafe operation.

CHILLBUSTER™ LOGS include: Specially designed logs for use exclusively on CHILLBUSTER Hearth Kits. Logs have holes and pins that properly locate the logs in order to promote proper burner performance.
CHILLBUSTER™ HEARTH KITS include: Assembled burner/grate/safety control, Oxygen Depletion Sensor (ODS) pilot, connector and fitting, volcanic ash, embers (C8, C5, C7, DFC7, and C2 only), damper clamp.

M - Basic Manual Control **-** turn the valve knob to light the main burner and adjust the flame height. Is not upgradable to remote control.

ME - Manual "EASY". Turn the valve knob to light the main burner. ON/OFF control (minimal flame height adjustment). Upgradable to SE or RE.
SE - Remote Ready "EASY" – Latching solenoid system that controls the ON/OFF of the burner(s) with the receiver switch or one of five Wireless Remote Transmitter Devices (sold separately - see Page). "SE" is not a "millivolt" systemON/OFF control (minimal flame height adjustment
RE - Variable Flame Height Remote "EASY" Control - Light the burner and control the flame height with the hand-held wireless remote control (included).

M, ME, **SE** and **RE** controls have standing pilots that consume 300 BTU/hour (1 therm of natural gas every 13.9 days, or 1 gallon of propane every 12.7 days).

S millivolt controls has a standing pilot that consumes 575 BTU/hour (1 therm of natural gas every 7.2 days, or 1 gallon of propane every 6.6 days). They have an installed switch for ON/OFF control and may be also used with the SR-MV1 and SR-THR1 remote controls, or with a wired wall switch, wired wall timer, or a home automation system.

EI controls are pilot-on-demand systems – there is no gas being consumed while the unit is OFF. They include the hand-held remote control transmitter, with which the set is turned ON. OFF and

S Millivolt controls have an installed switch for ON/OFF control. They may be used with the SR-MV1, THR-MV1 and WS-MV1 remote controls, or with a wired wall switch, wired wall timer, or home automation system.

Please Note: The #1 Service Call for Vent-Free sets (for all manufacturers) is the result of clogged ODS pilot air intakes. This is not a warranty issue, but is easily corrected.
Symptom: Either the pilot is hard to light or, after a period of burning, the unit shuts down.
Cause: ODS pilot air intake holes are located at the rear of the pilot assembly near where the pilot gas line attaches to the pilot. They draw in air to mix with the gas for a proper pilot flame. Over time lint and dust can be drawn into the holes with the air, resulting in an improper gas/air mix and a poor pilot flame that results in nuisance pilot outage.
Fix: Clean out the ODS pilot air intake holes with a pipe cleaner or compressed air. In most cases, no parts replacement is needed. This procedure should be accomplished seasonally, or as needed.
Detailed instructions may be found at www.rasbox.com

ALTERNA™
CONTEMPORARY GAS FIRES

VENT-FREE CONTEMPORARY FIREPLACE HEATERS

All ALTERNA VF sets are certified to two standards: ANSI Z21.11.2 (Unvented Room Heaters) and ANSI Z21.60 (Vented Decorative Appliance). For use in wood-burning fireplaces or approved vent-free firebox enclosures. They may be used with the damper open, closed or anyplace in between. Vent-Free sets are supplemental zone heaters - they are not intended for continuous use or whole house heating.

Glass doors must be wide open when burning for proper ventilation, proper combustion and cooling of safety controls. With adequate combustion and ventilation air, the damper may be closed for vent-free use. The damper may be opened slightly for reduced venting. Check local codes and ordinances for permitted uses. Vent-free sets are the only safe alternative for burning in a vented fireplace with smoking/spillage issues.

A complete certified set consists of Alterna Objects and Alterna VF Hearth Kit.

DO NOT MIX OBJECTS AND HEARTH KITS FROM DIFFERENT CATEGORIES OR FROM DIFFERENT MANUFACTURERS. Doing so could result in unsafe operation.

ALTERNA™ VF OBJECTS include: Glass or FireDrops, or Balls, Shapes or Stones to fit the location slots in the hearth chassis.

ALTERNA™ VF HEARTH KITS include: Assembled burner/grate/safety control, Oxygen Depletion Sensor (ODS) pilot, connector and fitting, damper clamp. Available in either Stainless Steel or Black Chassis.

ME, **SE** and **RE** controls have standing pilots that consume 300 BTU/hour (1 therm of natural gas every 13.9 days, or 1 gallon of propane every 12.7 days). **ME and SE** provide ON/OFF control with minimal flame height adjustment. **RE** has a motor drive for remote flame height adjustment.

S millivolt controls has a standing pilot that consumes 575 BTU/hour (1 therm of natural gas every 7.2 days, or 1 gallon of propane every 6.6 days). They have an installed switch for ON/OFF control and may be also used with the SR-MV1, THR1-MV1 and WS-MV1 remote controls, or with a wired wall switch, wired wall timer, or a home automation system. The flame height can be adjusted manually at the control valve.

EI controls are pilot-on-demand systems – there is no gas being consumed while the unit is OFF. They include the hand-held remote control transmitter for turning the set ON, OFF and adjusting the flame height.

Please Note:
- **SE** – See Page 12 for Wireless Remote Transmitter options
- **S** – See Page 13 for Remote Switch and Transmitter options
- **RE** and **EI** include the Hand-held Remote Transmitter

Maximum BTU/hour inputs for Alterna VF Sets:
20" = 30,000 24" and 30" = 40,000

Replacement Parts for "EASY" Controls: SPK3E, RPK3E, RMC1E, ME, SE & RE

Item	Description	MSRP
STV-10	Manual Control Valve	**102.00**
STV-LS	Latching Solenoid for Remote Ready	**40.00**
STR-RMD	ON/OFF Variable Flame Height Remote Control Transmitter	**127.00**
BPR3	Battery Pack/Receiver for RPK3E and RMC1E	**87.00**
EW-2	2-foot long Wire Lead Extender for BPR3 Battery Pack/Receiver	**19.00**
EW-4	4-foot long Wire Lead Extender for BPR3 Battery Pack/Receiver	**22.00**
EW-6	6-foot long Wire Lead Extender for BPR3 Battery Pack/Receiver	**25.00**
EW-8	8-foot long Wire Lead Extender for BPR3 Battery Pack/Receiver	**28.00**
EW-10	10-foot long Wire Lead Extender for BPR3 Battery Pack/Receiver	**31.00**
STV-VMD	Variable Motor Drive for RMC1E	**119.00**
STV-KE2	2-inch pilot knob extender	**9.00**
J95R	Pilot/thermocouple assembly (specify N or P)	**29.00**
18T	Thermocouple only for J95R	**21.00**
JPBT	1/8" Pilot Burner Tube for J95R	**9.00**
A204	Pilot Burner Orifice for J95R and JPG9 (specify N or P)	**9.00**

Replacement Parts for Millivolt Control Valves (RPK1, RPK3)

V11EHC	Millivolt Valve for RPK1EHC	**900.00**
V11HC	Millivolt Valve for RPK1HC	**470.00**
V11	Millivolt Valve for RPK1	**305.00**
V11Z	Millivolt Valve for RPK3 (specify N or P)	**302.00**
JPG9-	Pilot/Multicouple Assembly for RPK1 and RPK3 (specify N or P)	**80.00**
JPG9C	Multicouple for JPG9	**53.00**

Replacement Parts for EIS-RL150 and EIS-RS150

1751-724	Igniter Sensor with 24" lead (requires 2)	**77.00**
1751-749	Igniter Sensor with 72" lead (requires 2)	**92.00**
1830-010	Pilot assembly (NO IGNITER SENSORS)	**39.00**
STEV-PLRL-	Pilot/Sensors Assembly for EIS-RL150 (specify gas type: N or P) - 72" igniter leads	**223.00**
STEV-PLRS-	Pilot/Sensors Assembly for EIS-RS150 (specify gas type: N or P) - 24" igniter leads	**193.00**
AT1424	1/4" x 24" Aluminum tube for EIS-RS Pilot	**10.00**
AT1472	1/4" x 72" Aluminum tube for EIS-RL Pilot	**15.00**
STEV-40SM	Electronic Ignition Valve, includes variable step motor drive	**250.00**
STEV-MOD2SM	Control Module for Step Motor	**104.00**
STEV-SM	Step Motor	**92.00**
STEV-WH24SM	24" Wire Harness, for use with Step Motor	**15.00**
STEV-WH24-2	24" Wire Harness, 8-Wire, for use with Step Motor	**19.00**
STEV-BPSME	Battery Holder for 4-AA batteries	**13.00**
STEV-REM	ON/OFF Variable Flame Height Remote Control Transmitter	**45.00**
STEV-AC	Plug-in adaptor for A/C Power Supply	**23.00**

Replacement Parts for EIS-N135, EIS-N200, EIS-N350, EIS-N720, EIS-P200, EIS-P350 (24V)

1751-749	Igniter Sensor with 72" lead	**92.00**
1830-010	Pilot assembly (NO IGNITER SENSOR)	**39.00**
EIS-PLT1-	Pilot/Sensors Assembly for 24V EIS systems (specify gas type: N or P) - 72" lead	**131.00**
620-405	Transformer 120/24 VAC	**40.00**
722-079	Valve used in EIS-N135	**403.00**
722-070-	Specify N or P - Valve used in EIS-N200 and EIS-P200	**455.00**
700-056-	Specify G or P - Valve used in EIS-N350 and EIS-P350	**672.00**
700-059	Valve used in EIS-N720	**696.00**
780-715	Ignition Control Module used in EIS-N135, N200, N350, N720 - non-lockout	**323.00**
780-845	Ignition Control Module used in EIS-P200, P350 - lockout	**380.00**
AT1472	1/4" x 72" Aluminum tube for Pilot	**15.00**

Replacement Parts for "VEI" EIS controls

GV60-BCA	Battery Box Cable, 1000mm	**20.00**
GV60-C8	8 Wire Cable, 800 mm	**16.00**
GV60-ICA	Ignition Cable, 1.3mm 900mm	**8.00**
GV60-RCA	Interruptor Receiver Cable, 800mm	**16.00**
GV60-RXA	Receiver	**201.00**
GV60-SWA	On/Off Switch with Cable, 800mm	**17.00**
GV60-TIA	Thermocouple Interrupter	**17.00**
GV60-TXA	Remote Transmitter, Thermostatic	**102.00**
GV60-TXB	Remote Transmitter, ON/OFF with Temperature and Time display (Vented)	**102.00**
GV60-VLP	EIS Gas Control Valve, Propane	**238.00**
GV60-VNG	EIS Gas Control Valve, Natural Gas	**238.00**

Please Note: The #1 Service Call for Vent-Free sets (for all manufacturers) is the result of clogged ODS pilot air intakes. This is not a warranty issue, but is easily corrected.

Symptom: Either the pilot is hard to light or, after a period of burning, the unit shuts down.

Cause: ODS pilot air intake holes are located at the rear of the pilot assembly near where the pilot gas line attaches to the pilot. They draw in air to mix with the gas for a proper pilot flame. Over time lint and dust can be drawn into the holes with the air, resulting in an improper gas/air mix and a poor pilot flame that results in nuisance pilot outage.

Fix: Clean out the ODS pilot air intake holes with a pipe cleaner or compressed air. In most cases, no parts replacement is needed. This procedure should be accomplished seasonally, or as needed.

Detailed instructions may be found at www.rasbox.com

Parts for CHILLBUSTER™ and Control Systems (see page 48 for new "E" controls)

Item No.	Description	MSRP	Wt
C1V-	Manual Valve/Reg Assembly for C1(A,B,C,D)-M, DFC1(C,D)-M (specify N or P)	**149.00**	3
C2V-	Manual Valve/Reg Assembly for C2(A,B)-M, C8-M,CR(A,B)-M (specify N or P)	**149.00**	3
C4V-R-	Dexen/Reg Assy for C2(A,B)-(S,R);C3(A,B)-S;C5(A,B)-S; (specify N or P)	**302.00**	3
C5V	Manual Valve for C3(A,B)-M, C5(A,B)-M, C7-M	**83.00**	1
YFV-	YF and TR Manual Valve/Reg Assembly (specify N or P)	**187.00**	3
V6	Manual Valve with 1/4" compression fitting for CRA-M, CRA-T, CRB-M, CRB-T	**29.00**	1
V11	Auto Safety Remote for RPK (non-regulated) - White-Rodgers	**305.00**	3
V11Z-	Auto Safety Remote for "Z" kits (ANSI Yellow Flame) - specify N or P (Dexen)	**302.00**	3
V14	Auto Safety Manual for SPK1 & CB "M" - 3/8 FIP x 3/8 FIP side inlet (Copreci)	**124.00**	2
V15	Auto Safety Manual for SPK1 - 3/8 FIP x 3/8 FIP back inlet (Copreci)	**124.00**	2
V16	Manual Valve, 3/8 MIP x 3/8 MIP for C5 and LD	**30.00**	1
GV34	Valve for RMC, C1-R, C7-R, C8-R (specify N or P)	**353.00**	3
GV34B	Valve for C5-R (specify N or P)	**353.00**	3
SW-1	Replacement Switch for CB "S" millivolt models	**22.00**	-
R1-3.5	Appliance Pressure Regulator, Set 3.5" W.C., for C1 and Alterna VF Natural Gas	**36.00**	1
R1-5.0	Appliance Pressure Regulator, Set 5.0" W.C., for C2, CR, C3, YF Natural Gas	**36.00**	1
R1-10.5	Appliance Pressure Regulator, Set 10.5" W.C., for C2, CR, C3, YF & Alterna VF Propane models	**36.00**	1
ODS-CN-	Copreci Oxygen Depletion Sensor Assembly for M, R, ME, SE, RE (specify N or P)	**68.00**	1
ODS-RCN-	Copreci Millivolt Oxygen Depletion Sensor Assembly for 2012 and later "S" units (specify N or P)	**145.00**	1
ODS-CTF2	Pilot Tube and Fittings to adapt Copreci ODS to units with OP ODS (specify burner model number so we can provide proper length of tube)	**16.00**	1
ODS-OP-	SIT Oxygen Depletion Sensor Assy for M, R, ME, SE, RE (specify N or P)	**68.00**	1
ODS-ROP-	SIT Millivolt Oxygen Depletion Sensor Assy for older "S" controls (specify N or P)	**152.00**	1
ODS-CTF1	Pilot Tube and Fittings to adapt OP ODS to units with Copreci ODS (specify burner model number so we can provide proper length of tube)	**16.00**	
J95R-	Pilot/Thermocouple Assembly YF & TR "M" models, SPK, RMC;YF ME, SE, RE; SPK3E, RPK3E and RMC1E (specify N or P)	**29.00**	1
J95RADN	Pilot/Thermocouple Assembly for Nat. Gas ANSI Yellow Flame ME/SE/RE	**67.00**	1
JPG9-	Pilot/Multicouple Assembly for YF ANSI "S" models, RPK1/RPK3 (specify N or P)	**80.00**	1
JPG9C	Thermo-generator for JPG9 ("S" & "R" YF and TR, and RPK)	**53.00**	-
18T	Thermocouple only for J95R	**21.00**	-
JPBT	1/8" Pilot Burner Tube for J95R	**9.00**	-
A204	Pilot Burner Orifice for J95R and JPG9 (specify N or P)	**9.00**	-
PIEZO	Piezo Ignitor/Pal Nut/Wire Assembly for CB, YF and TR	**23.00**	1
JK	Knob for C1A-M, C1B-M, DFC1-M, C3-M	**10.00**	-
JK2	Knob for C2A-M, C2B-M, CRA-M, CRB-M, YF, TR	**10.00**	-
DK2	Knob for C2A-S, C2A-R, C2B-S, C2B-R, Remote Yellow Flame AGA	**10.00**	-
CH5-RB	Rear Burner for C2A, CRA and 20" Alterna VF models	**82.00**	2
RAT-1	Front Burner for C2A, M2A models	**82.00**	2
CE-A18F	Front Burner for C3A models	**153.00**	3
CE-B24F	Front Burner for C3B models	**153.00**	3
CE-A18R	Rear Burner for C3A models; Front burners for C5A, C5B	**101.00**	3
CE-B24R	Rear Burner for C3B models; Rear burner for C5A, C5B	**101.00**	3
022AR	Burner for C1A, C1B, DFC1 and 24" Alterna VF models	**90.00**	2
023	Burner for 30" Alterna VF models	**90.00**	2
RBT-1	Front Burner for C2B, M2B models	**90.00**	2
038R	Rear Burner for C2B, CRB, M2B models	**90.00**	2
IR-1	Infra-Red (front) Burner for CRA models	**173.00**	3
IR-2	Infra-Red (front) Burner for CRB models	**185.00**	3
